Larry Borders wanted to say thank you for the road improvement, but the manhole covers need raised up to meet the pavement. If it isn't fixed it will eventually cause problems to the new pavement. Although the improvements are appreciated just thought it could have been done correctly or the road isn't going to last.

President Pro Temp Chuck Foss responded, thank you for bringing it to our attention, we will certainly look into it and get it fixed we don't want to waste the money that we put into fixing the roads. Chip Wibright will contact the company and take the street guys out and see what is going on.
